Pesca Maya Fishing Lodge opened its doors in January 1996 and has quickly become one of the Yucatan's most popular fishing destinations and with good reason. The lodge is located 90 miles south of Cancun in the 1.3 million acre Sian Ka'an (Mayan for "where the sky is born") Biosphere Reserve. Situated on a long, narrow strip of barrier beach, the lodge is virtually surrounded by water. To the east lies the blue Caribbean and a few hundred yards off shore, the Palancar Barrier Reef which stretches from southern Belize to north of Cancun. On the western side lies the vast "El Rio" system of flats, channels and mangrove. 10 miles to the north is the famed inlet through the barrier beach known locally as the "Boca".

And 4 miles to the south lies the incomparable Ascension Bay. The entire area boasts some of the Caribbean's greatest flats fishing for bonefish, excellent fishing for permit, fishing for snook, fishing for tarpon and other species, as well as reef and offshore fishing (in season).

Prize Trip Value: \$5,692
